A-Table

The A-Table collection commands a sense of strength and stability with its truss like construction, reminiscent of structural steel framing. Much like a bridge, the frame has been engineered to support great spans between legs. With power, data and cable integration options available, A-Table is a solid choice for large format tables and workstations.

A photograph of a modern building at night. The building features a large glass facade that reveals the interior. Inside, a large, glowing, coral-like sculpture is visible. The building is illuminated from within, and the sky is dark. The word "Coral" is overlaid in white text on the left side of the image.

Coral

Reminiscent of the underwater lifeforms that inhabit our oceans, Coral brings a geometric quality to any space. An object of substance and beauty which exudes a gentle, diffused light, Coral creates a warm and welcoming ambience. Coral is scalable in size and available in any number of configurations—ensuring it makes waves wherever you choose to place it.

A close-up photograph of a textured orange fabric, possibly a hat or a piece of clothing, with a curved seam. The fabric has a fine, woven texture and is set against a dark blue, textured background. The word "Crescent" is overlaid in white text.

Crescent

The Bauhaus movement gave new meaning to simple colours and shapes and the relationships between them. The Crescent collection celebrates this venerated German art school by embodying its key value that form follows function. The option of modular configurations or standalone units makes the collection adaptable and versatile. Crescent brings a modern and elevated sensibility to commercial and office environments or is a statement piece for the home.

Forum

The Forum sat at the heart of Ancient Rome and was a designated place for sharing opinions, concerns and ideas. The Forum collection reimagines these democratic ideals to produce a partitioned hub for collaborative work and digital communication. A media wall and capacity for remote working arrangements mean that Forum becomes a place where everyone can have their say.

Guell

Inspired by the serpentine bench seating that frames Gaudi's Park Güell, the Guell collection is centred on curved, clean lines and open, flowing spaces. Park Guell was designed to enhance the qualities of the existing landscape, and Guell playfully channels this vision. Guell's modular nature and power and data integration allow it to coalesce with all environments, making adaptable seating a walk in the park.

A modern, minimalist table is shown from a low angle. The table has a light-colored wooden top with a slightly irregular, organic shape. The base is white and composed of two large, angular, geometric panels that meet at a sharp edge. The table is set on a light gray, textured floor. The background is a plain, light gray wall.

Hext

Using the geometric shape of the hexagon as a point of departure, the Hext collection celebrates the power of symmetry. Angular and monolithic, Hext is both playful and reliably robust. With utmost equilibrium, Hext adds an architectural touch to any indoor or outdoor environment.

A close-up, low-angle shot of a modern white chair. The chair has a sleek, curved backrest and a thick, blue upholstered seat. The background is a plain, light gray.

Picket

The classic but playful form of the Picket collection allows for flexible use, whether it be for hospitality or home. Soft edges and a flowing form add to the warm nature of the Picket collection and make for relaxed and comfortable seating. The picket range responds to ideals of timelessness and versatility with a whimsical attitude.

Seat

Seat with Table Inlay

A close-up photograph of a modern table. The table top is made of light-colored wood with a visible grain, and the edge is rounded. It is supported by a thick, white, cylindrical pillar leg. The background is a plain, light color.

Pillar

Pillar is strong and unyielding, ideal for a range of residential and commercial settings. The collection uses a cattle rail extrusion—an archetypically Australian object—as an elegant table system that is both modest and confident. Designed for both indoor and outdoor use, Pillar raises the bar for functional flexibility.

Pinto

The Pinto collection plays with a familiar shape to create both maximal comfort and easy versatility. Pinto's design embraces the casual and playful nature of the classic bean bag but updates it with a sculptural and sophisticated silhouette. The overall feel is organic and relaxed and invites calm repose in every environment.

Dimensions

A close-up photograph of a wooden table top and its white legs. The wood has a natural grain pattern. The legs are made of a smooth, white material, possibly plastic or painted metal, and are joined at a central point. The background is a plain, light color.

Pony

Pony is inspired by the quintessential picnic table and its inventive fusion of table and chair. A hybrid piece that combines a casual, fun attitude with supreme functionality, Pony is a welcome addition to educational, hospitality and office environments. Functioning well as either a stand-alone piece or grouped together, Pony is a true showstopper.

A close-up photograph of a modern sofa's corner. The sofa features a combination of bright yellow and grey upholstery. The grey sections have a fine, woven texture, while the yellow sections appear smoother. The lighting creates soft shadows, emphasizing the geometric lines and textures of the fabric.

Prisma

The Prisma collection celebrates the geometric nature of its namesake, as well as its inherent versatility. A people-pleaser, Prisma is an adaptable modular system that takes everything in its stride, including open-plan offices and lively educational settings. This unrestrained flexibility allows every user to be the centre of focus.

Seed

The voluptuous, organic shape of the Seed ottoman provides a casual and inviting feel to any space. As either an individual piece or several scattered in a space, Seed exudes a poetic yet contemporary aesthetic. Seed creates the ideal resting place, a spot to take stock and perhaps even sprout a few ideas.

Chair

The image features two Derlot Stump cones against a white background. In the foreground, a bright green cone is partially visible, with the word 'Stump' printed in bold black text on its side. Behind it, a grey cone with a fine, pebbled texture is shown. Both cones have a tapered, frustum-like shape.

Stump

Bold, minimalist and uncomplicated, Stump gives an appreciative nod to one of the earliest forms of seating. Ideal for moments of impromptu conversation or much needed repose, Stump satisfies any social or seating arrangement. Suitable for indoor, outdoor and high traffic areas, Stump is the perfect support for a little down time.
